ACORN SQUASH: Acorn squash is an acorn-shaped winter squash w/ dark green fluted skin & yellow/ orange flesh. Its large seed cavity makes it a perfect choice for stuffing. This squash is characterized as having thick hard skin & seeds. Its firm flesh requires long cooking times. The typical acorn weighs 1 to 3 pounds & is noted for its sweet flavor. Choose squashes heavy for their size w/ hard, thick shells. Avoid any signs of decay, soft spots or cuts. Store whole unwashed in cool 50°, dry, dark place w/ good ventilation up to 2 mo. Smaller do not keep as long as larger. Do not wrap or put in plastic. Wrap cut pieces in plastic wrap & refrigerate up to 5 days.
